Eric,

So I just created the APRIL agenda and put his name down as a nomination. Should we invite him as a guest this time? We can call it an introduction.

We have considered who might best represent the interests of MCU at our Waterfront location on the PBIB Board and have concluded that John Hoyt, our Dean of the Waterfront Campus is the logical choice. John is well placed to represent our program and our students who are working and studying along the 6th street corridor. Please let John know what the next steps are in this process. Thanks again for this consideration See you soon.
